ICE REPORTED IN IOWA

Much Damage to Crops Will

—Locally the Weather  
Has Been Abnormally  
Cold for This Season In  
the Past Twenty-Four  
Hours.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Aug. 30.—With the  
opening of autumn still three weeks  
distant, frost for the entire northern  
and central parts of Ohio was pre-  
dicted for tonight by the United  
States weather bureau today. The  
thermometer was expected to regis-  
ter as low as 40 degrees over a  
large part of this area. Weather bu-  
reau officials declared the wave now  
sweeping east over the Mississippi  
valley and Central states would bring  
one of the coldest periods ever re-  
corded at this time of year. To-  
morrow will be warmer, it is pre-  
dicted.

The weather in Newark has been  
anything but agreeable for the past  
few days. It rained intermittently  
all of Sunday afternoon and in the  
evening came down heavily for sev-  
eral hours. Monday broke damp and  
gloomy with the thermometer at 52  
at 4 o'clock. At seven it had raised  
to 56 and at 9 o'clock was back to  
54. Showers are predicted again to-  
day with cooler weather in the south-  
west.

MUCH DAMAGE TO  
CROPS, REPORT OF  
WEATHER BUREAU

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 30.—Abnormal-  
ly low temperatures prevailed today  
over the Upper Mississippi and lower  
Missouri river valleys and the upper  
lake regions. In some places, the  
weather bureau reported today, the  
thermometer showed temperatures  
which made records for the month of  
August. Frosts were reported in  
many places. In some instances  
they were heavy and caused con-  
siderable damage to crops. Over al-  
most all sections mentioned tempera-  
tures were from 10 to 23 degrees  
below the seasonal average. The  
cold came down from the Canadian  
northwest and will spread tonight  
eastward, reaching the Atlantic states  
tomorrow. Frost was predicted as  
probable tonight in Michigan and  
Northern and Central Indiana and  
Ohio.

FROST IN NEBRASKA.

(ASSOCIATED PRESS TELEGRAM)  
Lincoln, Neb., Aug. 30.—Reports  
of light frost in northern and west-  
ern sections of Nebraska, were re-  
ceived by the local weather bureau  
this morning. The low places were  
chiefly affected, but no damage to  
the corn crop is feared. Small gar-  
den truck was slightly injured.

LIGHT FROSTS IN

KANSAS REPORTED.

(ASSOCIATED PRESS TELEGRAM)  
Kansas City, Aug. 30.—Although  
Government stations did not report  
frost in Kansas and Missouri, un-  
official reports from Atchison, Em-  
poria and Junction City, Kas., in-  
dicated that light frosts prevailed at  
those places early today.

In Kansas City, the mercury drop-  
ped to 46.8 which was within 3 of a  
degree of the lowest August record,  
established August 24, 1891. Among  
other temperatures reported to the  
local weather bureau were: Oklaho-

## MEXICANS KILL AN AMERICAN; BLEW UP TRAIN

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 30.—Official  
dispatches from Vera Cruz today tell  
of the receipt of mail reports on the  
killing of E. F. Welles, an American,  
auditor of the Tobasco Plantation  
company. No details were given,  
further than that Welles was killed  
by bandits, who blew up a train and  
shot the passengers of whom Welles  
was one.

The state department today ac-  
knowledged receipt of General Zapa-  
ta's acceptance of the Pan-American  
peace appeal. Favorable replies  
now have been received from practi-  
cally all chiefs outside the Carranza  
forces.

## Several Thousand Public Employees Lost Jobs Today, By New Civil Service Law

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Aug. 30.—The general  
decapitation of Democratic employes  
in the various state departments,  
planned to take place under the new  
Barnes-Moore state civil service law,  
effective tonight, under an informal  
ruling by the attorney general's de-  
partment, at least, has been tempo-  
rarily halted by the filing of the suit  
in the Franklin county common pleas  
court to test the constitutionality of  
the new act.

Dissolution of the temporary in-  
junction will be sought by represen-  
tatives of the state administration  
and if this is granted, the work of  
ousting Democrats and putting Re-  
publicans in their places will start.  
Changes, it is said, will be made at  
the outset in the state industrial  
commission, state treasurer's office,  
secretary of state's office, state board  
of agriculture, and other depart-  
ments. Scores of Democratic employ-  
ees are momentarily expecting dis-  
missal.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, O., Aug. 30.—Governor  
Willis today named Z. B. Campbell,  
of Ada, Republican, and S. D. Webb,  
of Athens county, Democrat, mem-  
bers of the new state civil service  
board under the Barnes-Moore law,

which went into effect last midnight.  
Both men had been appointed  
members of the commission by Gov-  
ernor Willis and have served on it  
for several months. Rev. Campbell  
acting as chairman. Campbell was  
appointed for four years and Webb  
for two. The salary is \$4,000.

Former Attorney General T. S.  
Hogan, representing a number of  
state employes, immediately an-  
nounced he would file suit to enjoin  
the new board from enforcing the  
Barnes-Moore law on the ground  
that it was not passed properly by  
both houses of the legislature. This  
action might result, it was predicted  
by many officials, in refusal of the  
new board to approve payrolls for  
state employes so that they would  
have to work without definite hope  
of immediate compensation.

The formal effect of the new law  
was to abolish automatically the jobs  
of 1670 state and several thousand  
other public employes in Ohio, who  
held positions under the non-com-  
petitive examination feature of the  
old civil service law.

New appointees for all these jobs  
had to be made today. In most  
cases the former employes were re-  
appointed provisionally, subject to  
competitive examinations which will  
be arranged later under the new law.

## NEGRO GUARDED BY MILITIA ON DAY OF TRIAL

(ASSOCIATED PRESS TELEGRAM)  
Murphysboro, Ill., Aug. 30.—To  
prevent the carrying out of threats of  
lynching made against Joe Deberry,  
a negro, charged with the murder  
of Mrs. James Martin, three com-  
panies of the Illinois state militia  
stood guard around the jail and  
courthouse here today, the day set  
for the opening of Deberry's trial. A  
mob of several hundred persons who  
surrounded the Harrisburg, Ills., jail  
last night, intent on lynching the  
negro, was foiled when officials  
smuggled the negro out of the jail  
and hurried him here in an auto-  
mobile under escort of state troops.

Deberry is alleged to have con-  
fessed to the murder of Mrs. Martin  
who was the wife of an attorney. He  
was a servant in the Martin home.  
Threats of lynching were made at  
the time of the murder and feeling  
was intensified when, several weeks later,  
Mrs. Martin's husband died of an  
illness induced by the shock of his  
wife's death.

COTTON BROKER DEAD.  
(ASSOCIATED PRESS TELEGRAM)  
St. Louis, Aug. 30.—James Henry  
Allen, 73, a pioneer cotton broker,  
Confederate veteran and brother of  
"Private" John Allen, former con-  
gressman from Mississippi, died here  
last night, after an illness of several  
months.

## Concessions by England To America, In Enforcing Recent Order In Council

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 30.—Concessions  
in the enforcement against American  
commerce of the British order in  
council were announced today as a  
result of informal negotiations just  
completed by the foreign trade ad-  
visors of the state department.

The British ambassador, Sir Cecil  
Spring Rice, assured the trade ad-  
visors that their informal representa-  
tions in cases where the British  
orders have caused "undue hard-  
ship" to American commerce will re-  
ceive special consideration.

Before June 15, the British author-  
ities declined to enter into informal  
negotiations with the trade advisors  
in any cases. The British note deal-  
ing with the detention of the Amer-  
ican steamer Neches, however, sent  
on July 31, set forth that in cases  
where "hardships may be inflicted on  
citizens of neutral countries," the  
British government would examine  
the facts in a "spirit of consideration  
for the interests of neutrals."

Information in the hands of the  
state department that private brokers

were securing permits in London for  
special shipments of American goods  
from Rotterdam, while the trade ad-  
visors were unable even to present  
special cases was transmitted to  
London.

The ambassador called at the state  
department personally to explain the  
extent of the British concessions,  
which are especially intended to  
meet the growing complaint of Amer-  
ican importers that their Christmas  
trade is threatened by failure to  
obtain goods made in Germany and  
Austria for which they had contract-  
ed.

Generally speaking, it is the inten-  
tion of the British government to  
permit the passage through the  
blockade lines of goods for which  
the American importers have entered  
into contracts with German and Aus-  
trian firms. Heretofore, it has been  
required that the money shall have  
actually been paid for the goods.  
Now, it will be sufficient to show  
that they were regularly contracted  
for and that the American importer

## FRENCH REPORT VIOLENT FIGHT AT ARTILLERY

(ASSOCIATED PRESS TELEGRAM)  
Paris, Aug. 30.—Violent artillery  
fighting took place yesterday evening  
at many points in the Argonne dis-  
trict as a result of which the trenches  
of the Germans were seriously dam-  
aged, according to the French official  
report this afternoon.

The text of the communication fol-  
lows:

"Yesterday evening saw severe  
artillery fighting, accompanied by  
the explosion of mines and engage-  
ments with bombs and hand grenades  
at a large number of positions in the  
Argonne district. The trenches of the  
enemy were seriously damaged at  
Courtes Chaussees, Meurissons and at  
Bolat.

"The advent of night brought  
relative quiet to this region, as well  
as on the rest of the front."

## EXPLOSION AT A POWDER MILL WAS ACCIDENT

(ASSOCIATED PRESS TELEGRAM)  
Agton, Mass., Aug. 30.—Convinc-  
ed that the blowing up of the glazing  
mill of the American Powder com-  
pany yesterday morning was due to  
accident, the local authorities made  
no effort today to continue investi-  
gations of the explosion. Although  
several persons were questioned re-  
garding their knowledge of the af-  
fair, no definite information was ob-  
tained. It was the belief of com-  
pany officials that the explosion did  
not differ from others which have  
taken place at the plant in the past.

BRITISH SHIP SUNK.  
(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 30.—The British  
steamer Sir William Stephenson of  
Newcastle, 1,514 tons gross, has been  
sunk.

## CHIVALROUS

Decision of France to Re-  
turn an Aviator Who Es-  
caped Internment

COMMENDED BY SWISS  
GOVERNMENT

Airman Wrote Withdrawing  
Word of Honor

LETTER WAS NOT OPENED

Until After the Daring  
Young Aviator Had Es-  
caped, and Swiss Con-  
tended He Had Not Been  
Released From His Prom-  
ise Not to Make An At-  
tempt to Get Away.

(ASSOCIATED PRESS TELEGRAM)  
Paris, Aug. 30.—Eugene Gilbert,  
the French aviator, whose return to  
Switzerland, after his escape from  
internment in that country was or-  
dered by the French government, ar-  
rived in Berne, yesterday, escorted  
by Captain Dufour, of the Swiss army  
according to a Havas Agency news  
dispatch today from Berne. The av-  
iator whose recent escape was said to  
have been effected after he had with-  
drawn his promise not to try to get  
away, was received by the Swiss staff  
and informed that he was considered  
as an officer interned without hav-  
ing given his word of honor.

Gilbert arrived this morning at  
the village of Hespenthal, where he  
was interned anew.

All the Swiss papers, the dispatch  
states, declare that a most excellent  
impression has been created in Swit-  
zerland by the return of Gilbert.

Dr. Lardy the Swiss minister to  
France called on Minister of War  
Millerand today to present "the  
thanks of the Swiss government for  
the courteous and chivalrous decision  
taken by the French government  
concerning second Lieutenant Aviator  
Gilbert." It has developed that  
Gilbert, before escaping, had written  
a letter to the Swiss general staff  
withdrawing his word of honor that  
he would make no attempt to escape.  
The letter was received several  
hours before the attempt was made,  
but was left unopened at army head-  
quarters and the general staff main-  
tains that Gilbert has not been re-  
leased from his word of honor.

The F-4 was raised by the pontoon  
method, six special pontoons each  
with a lifting capacity of sixty tons,  
having been constructed at the Mare  
Island, California, navy yard for the  
purpose after all other methods  
proved unavailing.

HUSBAND FOUND  
DEAD IN CHAIR;  
TURNED ON GAS

(ASSOCIATED PRESS TELEGRAM)  
Toledo, O., Aug. 30.—When Mrs.  
John Stader returned home from an  
automobile ride last night, she struck  
a match and an explosion of gas re-  
sulted. The flash revealed her hus-  
band dead in a chair. He had turned  
on the gas, the coroner found, and  
committed suicide. Mrs. Stader was  
burned slightly and the hair and eye  
brows of the corpse were singed.  
Stader was a painter.

## CHARGES

MADE AGAINST COLORADO'S AD-  
JUTANT GENERAL AND OTHER  
MILITIA OFFICERS

Are Being Investigated by Military  
Court Appointed by the Govern-  
ment.

(ASSOCIATED PRESS TELEGRAM)  
Denver, Colo., Aug. 30.—The mili-  
tary court of inquiry appointed by  
Governor George A. Carlson, to in-  
vestigate charges against Adjutant  
General John Chase and other offi-  
cers of the National Guard of Colo-  
rado, resumed taking of testimony  
behind closed doors today.

The appointment of the court was  
the result of charges against the ad-  
jutant general and other officers of  
the militia, growing largely out of  
the military administration during  
the recent strike of coal miners.

Saturday night the court of in-  
quiry seized in a detective agency's  
office, letters, which according to  
members of the court, indicated that  
the agency had been employed by the  
United Mine Workers of America to  
discourage enlistments in the Nation-  
al Guard and for other secret pur-  
poses with prosecutions growing out  
of the coal strike.

The sermon which it had been an-  
nounced would be answered last night,  
has caused considerable comment.  
The auditorium where it was deliv-  
ered, was filled to capacity and it made  
a deep impression upon the minds of  
many.

In this discourse, Pastor Russell  
declared that the European war was  
a fulfillment of the prophecies of the  
scriptures, and that it was a part of  
God's plan in bringing about His  
reign upon earth. The Brooklyn man  
denied that the earth was to be de-  
stroyed by literal fire when the end

## DECIDE UPON A COURSE IN ARABIC CASE

(ASSOCIATED PRESS TELEGRAM)  
Berlin, Aug. 30.—Via London.—  
It is understood today that Ger-  
many's course with regard to the  
Arabic case has been decided upon  
and that it is in line with the recent  
conciliatory statement by Dr. von  
Bethmann-Hollweg, the German  
chancellor.

This development followed the re-  
turn to Berlin of the chancellor, Ad-  
miral von Tirpitz and other partici-  
pants in the conference with the  
German emperor at his headquarters  
on the eastern front.

No official statement has been  
made regarding the German decision,  
but there seems good ground for the  
belief that the government has adopt-  
ed the viewpoint set forth by the  
chancellor.

## What Happened to Camera When Uncle Sam's Twelve-Inch Mortars Were Fired at Fort Totten

Photo Taken Just As Twelve-Inch Mortars Were Fired.

These photographs illustrate Uncle  
Sam's preparation for war by the  
test of the great twelve inch mortars  
at Fort Totten, which protect New  
York from invasion by way of Long  
Island Sound. The fort is on Long  
Island, some miles from Manhattan  
and Brooklyn, and it is designed for  
the destruction of enemy ships which  
might approach the city by the back  
door. The great mortars, which  
shoot seven miles, were tried out the  
other day. Photographers set up  
their cameras just back of the guns  
and tried to catch them as they were  
fired. The vibration was so great  
that the picture blurred.

With each terrific roar observers  
from the fort could see without  
glasses the 700-pound steel projectile  
rise higher and higher until it dis-  
appeared a mere speck in the sky.  
Then they would wait and watch the  
placid water of the Sound. If you  
followed their gaze and kept your  
eye on a stretch the blue water seven  
miles away you saw suddenly a tow-

## Dr. L. C. Sparks Preaches Sermon Designed to Answer One Given by Pastor Russell

Any one who undertakes to inter-  
pret the Scriptures with a view of  
teaching God's word to his fellow  
man, should be serious minded and  
cautious, according to Dr. L. C.  
Sparks, pastor of the First M. E.  
church, who last night answered Pas-  
tor Russell, head of the International  
Bible Students' Association, who de-  
livered a sermon at the Auditorium  
a week ago on "The Battle of Armu-  
gaddon." Dr. Sparks urged that there  
should be no interpretation of the  
Bible without reverence and sincer-  
ity. He said that there was a tendency  
to speculate when interpretations are  
made in any other frame of mind,  
that there is danger of going astray in  
interpretations which often are made  
to conform with some preconceived  
notion or theory.

Dr. Sparks' sermon was heard by a  
large audience, many of those who  
heard Pastor Russell a week ago, be-  
ing interested in the Newark minis-  
ter's answer.

The sermon which it had been an-  
nounced would be answered last night,  
has caused considerable comment.  
The auditorium where it was deliv-  
ered, was filled to capacity and it made  
a deep impression upon the minds of  
many.

In this discourse, Pastor Russell  
declared that the European war was  
a fulfillment of the prophecies of the  
scriptures, and that it was a part of  
God's plan in bringing about His  
reign upon earth. The Brooklyn man

## MAY ORGANIZE YACHT CLUB AS SCHOOL FLEET

(ASSOCIATED PRESS TELEGRAM)  
Chicago, Aug. 30.—Mayor William  
Hale Thompson, and Commodore  
James A. Fugh, of the Chicago  
Yacht Club, will soon leave for  
Washington to lay before the federal  
government a plan to organize the  
newer boats on the Great Lakes and  
elsewhere, into a reserve school fleet  
for volunteer war service at the call  
of the nation, it was announced to-  
day.

## CONCLUSION

Of Great Offensive Move-  
ment Against Russians, For  
Present, At Least

SEEN BY SOME ENGLISH  
CRITICS

Last Corner of Galicia Will  
First Be Cleared

NOT A DIFFICULT TASK

In View of Past Successes  
and the Fact That Grand  
Duke Nicholas Cannot at  
Present Jeopardize His  
Armies By Holding River  
Positions After Loss of  
Brest-Litovsk Fortress.

(ASSOCIATED PRESS TELEGRAM)  
London, Aug. 30.—Reports from  
the eastern front indicating that the  
Austrians and Germans are engaged  
in an effort to clear the last corner  
of Galicia still held by their oppo-  
nents have excited great interest  
here. The Russian lines on the up-  
per Bug and the Zlota Lipa have  
been pierced but it is not yet clear  
how serious a resistance is being of-  
fered to the vast enveloping move-  
ment from the south.

Having lost Brest-Litovsk, Grand  
Duke Nicholas cannot afford to hold  
the river positions in the south in  
the face of an important movement,  
for, to do so would endanger his  
armies. The opinion is ventured by  
some English critics that this latest  
move may conclude for the present  
the great offensive effort against the  
Russians which has been in progress  
since May, and that once Austrian  
soil is cleared of the invaders a new  
campaign may be undertaken by the  
Tautonic forces, this time in the  
Near East.

In support of this theory is cited  
the report that the Central Powers  
are massing troops near the Ruman-  
ian border.

The week end witnessed violent  
and almost continuous activity on  
the part of the artillery of the allies  
all the way from the North Sea to the  
Vosges. There are no indications,  
however, that this expenditure of big  
gun munitions is being followed by  
infantry attacks.

London is again awaiting official  
reports from the British and French  
authorities concerning the campaign  
at the Dardanelles, where, according  
to Constantinople, heavy fighting is  
under way.

## BERKELEY, CAL. POLICEMEN MUST ATTEND COLLEGE

(ASSOCIATED PRESS TELEGRAM)  
Berkeley, Calif., Aug. 30.—Policemen  
of Berkeley are required to attend the  
University of California, it was an-  
nounced today. This, it is thought, is  
the first time any city in the world  
has made preparations to have a "col-  
lege bred police department."

The course of study is in the rela-  
tion of mental disease to criminology.  
The theory is that the policemen  
will be able to "size up" a man ar-  
rested for a crime and ascertain just  
what other crimes he might have com-  
mitted.

## AMERICAN GUARDS ITALY'S INTERESTS IN CONSTANTINOPLE.

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 30.—Ambassa-  
dor Morgenthau, at Constantinople has  
taken over the diplomatic interests of  
Italy, Russia, and Montenegro.  
These added responsibilities for the  
United States, called to the state de-  
partment today, makes this govern-  
ment diplomatic agent at the Porte  
for eight European nations.

## TAGS WORN FOR IDENTIFICATION OF PASSENGERS

(ASSOCIATED PRESS TELEGRAM)  
New York, Aug. 30.—Passengers  
arriving here today aboard the steam-  
er Espagne from Bordeaux wore  
identification tags, issued to them be-  
fore sailing, so they might be identi-  
fied in case German submarines  
should send their ship to the bottom  
while they were passing through the  
war zone. It was the first time that  
such tags had been worn by passen-  
gers aboard a liner reaching here  
from Europe since the war began.

To escape submarines, the Espagne  
sailed at 2 o'clock in the morning of  
August 21, shortly after the sinking  
of the Arabic had become known.  
Her officers and passengers were ap-  
prehensive of their own fate and to  
make identification possible in case  
of disaster, the company listed their  
names and gave each person a tag to  
be worn on the way across. The trip,  
however, was without special inci-  
dent.

## EMPLOYEES BACK TO THEIR TASKS AT BRIDGEPORT

CONFERENCE BEGINS TODAY ON QUESTION OF ORDERING GENERAL STRIKE

In Remington Arms and Ammunition Factory Because Discrimination is Alleged.

[ASSOCIATED PRESS TELEGRAM] Bridgeport, Conn., Aug. 30.—Many hundreds of factory workers who had been on strike recently returned to their accustomed tasks today, their differences with employers over hours and compensation having been adjusted. In nearly every instance the workers have entered upon the eight hour schedule, without reduction in wages. The largest delegation of returning employees was that of upwards of 800 girls at the Crown and the George C. Batcheller Corset Companies. At a meeting of employees of the Salt's Textile company where 1500 are out and the plant is closed for two weeks announcement was made today that work for 100 weavers and slaters can be obtained elsewhere. No one signified a willingness to leave the city. The strikers are confident of winning a shorter work day and changes in the shop system.

A conference will begin today to discuss the question of ordering a general strike against the Remington Arms and Ammunition company, because of alleged discrimination against workers in one trade and the discharge of four men who served on a shop committee. The conference will include T. M. Daly, national president of the Metal Polishers, Buffers, Platers, Brass and Silver Workers of North America, W. H. Johnston, national president of the Machinists, John Hines, national president of the Sheet Metal Workers' union and officers of other unions who have been active here recently.

While the conference will deal specifically with the alleged grievances at the Remington plant, plans for the campaign for an eight hour day to be opened in New Haven this week, and later at Waterbury and Hartford also will be considered. The alleged grievances at the Remington plant relate to the strikers who claim they were promised an advance in wages. They formerly received \$1 per hundred for polishing bayonets and gun barrels, but claim that when the eight hour schedule was adopted their wages dropped to 50 cents per hundred.

Four men refused to accept the new scale and when they protested they were discharged. The union, in appealing for assistance, asked that all the metal workers in the plant be called out.

The number of plants at which there are strikers today number thirteen.

## TAXICAB RATE IN CHICAGO 20 CENTS

[ASSOCIATED PRESS TELEGRAM] Chicago, Aug. 30.—Chicago is to have the lowest taxicab rate in the United States. It was made known today. A local taxicab company announced that it had reduced its fare for an average trip within the business district to 20 cents, a rate lower than that authorized by the city ordinance. The former rate was thirty cents.

## FARMERS FIGHT FOREST FIRES

Portland, Ore., Aug. 30.—Three hundred men, many of them farmers called from their harvesting, were fighting three big forest fires today in the Cascade mountains, near Mount Hood. Thousands of acres of woodlands have been burned and many fields of grain have been destroyed. Smaller fires are burning in other sections near Portland. Forestry officials charged that several of the fires were of incendiary origin.

## Perfect Health Is Every Woman's Birthright

A Prescription That from Girlhood to Old Age Has Been a Blessing to Womanhood.

When a girl becomes a woman, when a woman becomes a mother, when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth that keeps the entire female system perfectly regulated and in excellent condition.

## FROSTS

(Continued from Page 1.) ma City, Okla., 48 and Dallas, Texas 60. A temperature of 50 at Tulsa, Okla., was a new low record for August there.

## ICE IN IOWA.

[ASSOCIATED PRESS TELEGRAM] Waterloo, Iowa, Aug. 30.—Heavy frosts, in some instances taking the form of ice, were today reported as occurring in this section last night. The government thermometer here registered 34 above zero. All tender vegetation, including melons, late potatoes and some sweet corn, is said to have been damaged. Field corn probably escaped serious damage, in this county, but reports from the northern Iowa counties were that this grain suffered more serious damage.

## CHICAGO RECORD EQUALLED.

[ASSOCIATED PRESS TELEGRAM] Chicago, Aug. 30.—Only twice before in the history of the local weather bureau has the mercury dropped so low in August as was today. It registered 47 degrees. This record was equalled in 1872 and again in 1878.

## KILLING FROSTS IN MISSOURI.

[ASSOCIATED PRESS TELEGRAM] Wausau, Wis., Aug. 30.—Damage estimated at between \$200,000 and \$300,000 was caused to late potatoes and garden truck throughout Marathon county last night by a killing frost. The corn crop also suffered heavy losses.

## P. O. SAFE BLOWN.

[ASSOCIATED PRESS TELEGRAM] Cincinnati, O., Aug. 30.—The safe in the postoffice at Mount Washington, Ohio, was blown into small bits today by robbers. Although the quiet suburb felt the shock of the explosion, its source was not investigated. A heavy horse blanket was wrapped about the receptacle to deaden the report of the explosion and was left as a souvenir of the visit. A small amount of money and postage stamps was taken.

## YOUNG LAD MUST SERVE TIME FOR SNARING "SUCKER"

William McNeerney, aged about 17 years, was brought into the court of Justice D. M. Jones this morning upon the affidavit of Frank Brown and was charged with snaring fish in the north fork of the Licking river. He was caught red-handed in the act of snaring a poor innocent little sucker, which with his pole and line and a snare attached was introduced as evidence.

The lad, who is not overly bright, admitted his guilt but said that he was not fishing for bass and claimed that he did not know that he was violating the law. Justice Jones fined the lad \$25 and the costs, which means that the boy must serve at least thirty days in the county jail.

The justice had no other alternative, the law clearly told him his duty and the only thing he could do after the boy admitted his guilt was to fine him and the law even stipulates that \$25 is the minimum fine. The agricultural board is the only recourse left to the lad to assist him, so the law states, but who will take that much interest in the lad? He was not represented by an attorney, because the law does not give him that right unless he has the means to pay for one. There was no friend in court to advise him. When told that he would have to go to jail the lad broke down and cried and kept repeating "I was only fishing for suckers." The boy may be an incorrigible, in fact he admitted that he had been arrested several times before but that does not prevent him from being entitled to just a little sympathy. He was only a poor ragged urchin and he looked out of place in a criminal court. It seemed to the casual spectator that a juvenile court would have been the proper place to have passed upon the wrong-doing of the youngster.

The Licking County Fish and Game association has been organized to prosecute all persons taking fish and game illegally and their object is commendable and should have the backing of all true sportsmen and citizens in general. It is to be hoped that some arrangement can be made by its officers where youths found violating the fish and game laws of the state can be punished so that they may be made to see the error of their ways without sending them to jail for a long time sentence where of a necessity they come more or less in contact with hardened vagabonds and criminals.

## MUTT AND JEFF

CUTTING UP AGAIN. "What did Mutt and Jeff do today?" is again the daily question. It is quite as common as "What is new in the war?" and a good laugh always goes with Mutt and Jeff.

These greatest fun makers are again cutting up their comical capers in The Pittsburgh Gazette Times. They are a scream, of course, for there never was another so comical a comic as "Bud" Fisher makes of these creatures of his brain and pen. Mutt and Jeff are human, they are irresistible in their appeal. In The Gazette Times they are another big feature added to the big things that characterize Pittsburgh's One Big Newspaper. "Bud" Fisher's Mutt and Jeff humor is always fresh. You never have to hunt for the laugh. You are never shocked. Mutt and Jeff are the One Big Daily Comic. That's why they are in The Pittsburgh Gazette Times. 8-30-d-11\*

The score:

## THE ST. PAUL PHANTOM TRAINING WITH HIS BROTHER FOR GREATEST BOUT OF A DECADE

Mike Gibbons

Tom Gibbons

The great Mike Gibbons, the cleverest middleweight since Sam Langford was at his best, is hard at work in St. Paul training for his ten round match with Rocky McFarland of Chicago, in the Brighton Beach Motorhome, New York, Sept. 11. Mike's best sparring partner is his brother, Tom, who is a very fine boxer himself.

This contest ought to be the cleverest since Jim Driscoll, the most wonderful boxer the ring has known with the exception of Young Griffo met Abe Attell for ten rounds in 1909. It is only once in a decade such an exhibition as these two men can give is arranged.

The salient features of the agreement for the fight are as follows:

**ARTICLES OF AGREEMENT**  
Entered into this third day of August, A. D. 1915, between WILLIAM C. MARSHALL, individually, and as a representative of the OCEAN ATHLETIC CLUB OF NEW YORK CITY, and ROCKY McFARLAND of Chicago and MIKE GIBBONS of St. Paul, Minnesota, WIFESEBETH.

Said McFarland and said Gibbons do hereby agree to engage in a boxing exhibition of contest, not exceeding ten (10) rounds on the night of September the eleventh, A. D. 1915, in the arena of the said Ocean Athletic Club at Brighton Beach, State of New York, which said exhibition or contest shall be governed by the rules and regulations of the Boxing Commission of the State of New York.

D. 1915, shall be inclement, then the said contest or exhibition shall be postponed to the first clear night following said date as shall hereafter be decided by said MARSHALL and ROBERT EDGREN and EDWARD W. SMITH, said Marshall, Edgren and Smith shall be sole judges of the inclemency of the weather on the above dates, and a decision made by a majority of the said judges shall be final and conclusive on the parties to this agreement.

**THIRD.** Said McFarland and said Gibbons hereby agree to weigh in at 7.00 o'clock on the afternoon of September 11th, A. D. 1915, at not to exceed 117 pounds. In event said exhibition or contest is postponed, said McFarland and said Gibbons shall re-weigh on the afternoon of the night selected.

**FOURTH.** Billy Jon shall referee at said contest.

**FIFTH. IT IS FURTHER UNDERSTOOD AND AGREED** that said Marshall hereby agrees to pay said McFarland the sum of Seventeen Thousand and Five Hundred (\$17,500) Dollars, in cash, for his services in said contest, and said Marshall also agrees to pay said Gibbons the sum of Fifteen Thousand (\$15,000) Dollars, in cash, for his services in said contest.

Said Marshall agrees to deposit with Robert Edgren on or before September 11th, A. D. 1915, at 3.00 p. m., the sum of Thirty Two Thousand Five Hundred (\$32,500) Dollars in cash, and said Edgren shall pay within twenty-four (24) hours after said contest or exhibition shall have been terminated according to rules in ten rounds or less, the sum of Seventeen Thousand Five Hundred (\$17,500) Dollars of said sum to said McFarland, and the sum of Fifteen Thousand (\$15,000) Dollars to said Gibbons as hereinafter provided.

D. 1915, or at any postponed date of said contest or exhibition as hereinabove provided.

exhibition shall have been terminated according to rules in ten rounds or less, the sum of Seventeen Thousand Five Hundred (\$17,500) Dollars of said sum to said McFarland, and the sum of Fifteen Thousand (\$15,000) Dollars to said Gibbons as hereinafter provided.

## FIFTH GAME OF CHAMPIONSHIP SERIES DELAYED

Sunday afternoon's rain storm, which no longer is a novelty in these parts, made the fifth game of the city championship series between the C. A. C. and the Heleys impossible and arrangements were made for next Sunday for this game. Announcement was also made that the two final games of the series would be played Labor Day as a double header. Sunday's rain thoroughly soaked the playing field at Wehrle Park and there was not even a faint chance that the game could be played. Both teams were ready and anxious for the fray.

## BASEBALL FANS WATCH GOLFERS IN BALL PARK

Detroit, Mich., Aug. 30.—Thousands of baseball fans at Navin Field yesterday watched three Eastern athletes stand behind home plate and hit golf balls, which whizzed over houses more than 50 yards beyond the center field wall. The young men were Francis Oumet of Woodland, Mass., Jesse Guilford of Boston and Alex Marston of Springfield, N. J. They are golfers.

The ball game between Detroit and New York was halted about the fifth inning. The three famous golfers, attired in civilian clothes, were escorted to the diamond by Manager Jennings of the Detroit Club. One of the many Tigers who plays the Detroit game in quick succession, Oumet, Marston and Guilford drove each ball sailed over the wall near the exit sign and seemed still to be on the rise when it was lost from sight.

Guilford had the best luck. He hit a low screamer that traveled on a line until it reached deep center. The crowd cried for a tolerably clever golfer named Tyrus Raymond Cobb to give an exhibition, but he, after watching Guilford's ball start on its journey toward the Canadian border, threw up his hands in amazement and walked to center field.

## FOOTBALL MEN PRACTICE BEFORE THE RAIN COMES

Newark. (Independent) football team practiced Sunday morning at Wehrle Park. The squad indulged mostly in signal practice and by the time the season opens they will have things in tip top shape. There are about twenty candidates trying out for different positions and it will be some time before any one will know who is going to make good. The team will have "Booster Tickets" out this week at \$100 each. The ticket is good for five games. The team will again practice at Sixth and Main street, Tuesday and Thursday evening, at 7 o'clock. All new candidates will please come early.

## Theatres

"The Climbers".  
When Clyde Fitch wrote "The Climbers" for the stage, he set out to tell a big, convincing story, and succeeded nobly well. But he never dreamed that the same plot could be made doubly intensive and gripping as it has been worked up in the motion pictures that will be shown at the Vazda tomorrow night.

The stage has its limitations, and, perhaps, in no other dramas, have these limitations been so apparent as they will be to one who saw "The Climbers" in the original and its perfect production on the screen tomorrow night.

"The Climbers" is a story that unfolds big ideals and big losses in the financial market, and makes and un-makes millions in a minute.

The humorous side of this great story, wherein "The Climbers," in their poverty are obliged to part with their stolen finery, is a bit of realism that shows the master touch of Clyde Fitch.

Forest Hills, L. I., Aug. 30.—The opening round of the National Lawn Tennis championship tournament, scheduled for today, was postponed until tomorrow, owing to wet courts.

President R. D. Wrenn of the National Association inspected the courts of the West Side club with several members of the executive committee and decided that the turf would not permit of play today owing to the continued rain of the past 24 hours. The same time schedule and order of play will be observed tomorrow.

BY JESSE TAYLOR  
Editor of "Better Roads and Streets"

(Continued from Saturday.)

The county highway superintendent, under the direction of the state highway commissioner, shall provide for the maintenance and repair of the roads of the county, under such system as may be determined expedient, so that each section of the highways of the county shall be under proper supervision and be effectively and economically improved, maintained and repaired.

The county commissioner may purchase such machinery or other equipment for construction, improvement, maintenance or repair of highways, bridges and culverts under their jurisdiction, as they may deem necessary, which shall be paid for out of any taxes levied and collected for construction, improvement, maintenance and repair of roads.

The county highway superintendent shall annually on the first day of November make or cause to be made a written inventory of all such machinery, tools and equipment indicating each article and stating the value thereof and the estimated cost of all necessary repairs thereto and deliver the same to the county commissioners.

The county highway superintendent may lease or hire machinery, tools and equipment for highway, culvert or bridge repair, at a price to be approved by the county commissioner or township trustees.

It shall be unlawful for any person, firm or corporation to construct a walk or dig a ditch across a public highway outside of any municipality without the consent of the county highway superintendent or township trustees.

The county highway superintendent shall have control of all trees, shrubs and grass in the public highways of the county but not within the limits of a municipality, and shall prosecute complaints for malicious injury to such trees.

The county highway superintendent, with the approval of the county commissioners or township trustees, may construct and maintain water troughs and drinking fountains along public highways at convenient points.

The state highway commissioner cannot designate additional inter-county or main market roads or change existing inter-county roads without first publishing a notice of the same.

Applications by county commissioners to the state highway commissioner for aid from any appropriation by the state shall be filed prior to January 1st of the calendar year over which such appropriations may be made or become available.

When a part of an inter-county highway or main market road is improved by the state, by contract or force account, ten per cent of the cost of said construction or improvement shall be assessed against the land abutting thereon according to benefits, provided the total amount assessed against any owner or abutting property shall not exceed thirty-three per cent of the valuation of such abutting property.

Each application for state aid in the construction, improvement, maintenance or repair of inter-county or main market roads, shall be a properly certified resolution that the county commissioners or township trustees stating that the public interest demands the improvement of the inter-county or main market road described, which may include any portion of a highway in the limits of any village, when the same is a continuation of the proposed improvement, and the consent of the council of the village has first been obtained.

more, to the edge of the Potomac. The river at this point is a wide tidal estuary and the action of the waves has caused a steady erosion at the foot of the bluff. In delving the bluff are strata of sand, clay, and soft sandstone, which, on investigation, were found to be saturated with water, and this, combined with the erosion of the waves, has resulted in landslides that have doubtless been going on intermittently for ages. To cure the trouble a sand drainage tunnel was first driven in the bottom of the sandstone stratum and carried back from the river front a distance of about 200 feet. From this tunnel a heavy flow of water immediately started and this flow continued for several months. At the end of that time the flow diminished to a moderate amount and has remained practically constant ever since. To prevent further erosion at the foot of the bluff through the action of the waves a heavy masonry wall was then built along the edge of the river.

## Upward Revision of Tariff Impractical.

(Louisville Courier-Journal.)  
When the Payne-Aldrich law was in operation those who did not want the tariff revised downward looked with marked favor upon the tariff-revision-by-commission plan. In point of fact, they were the originators of the idea. But now that the tariff has been attacked from the angle from which it was attacked in England when England suffered a protective tariff as corrupt and corrupting, the Protectionists can see nothing but evil in a tariff commission.

The American Economist flames with wrath when it says that revision by commission "can't be done." The country, as The Economist sees it, wants a return to high protection at once, and "at once" is a phrase unknown to revising commissions. What is wanted at once is "adequate protection," and a Republican Congress alone can be depended upon, by The Economist, to provide that sort of protection.

The Economist is not inconsistent. It wanted a commission when the tariff was satisfactorily high because a commission would leave it so. It does not want a commission now because a commission would not get much done in the direction of radically changing the nature of the revenue laws. The Economist is not righteous in its desires, but is right in its reasoning. We shall not get "adequate protection" tariff laws by commission. Fortunately, we shall not get them at all. The hand of the people has been laid—not heavily enough, maybe, but somewhat heavily—upon the hand of the grafter.

## Southern Paper's View.

The Georgia authorities ought to run down and punish the traducers of the state's name in the case of Frank, or else they should issue a proclamation announcing that on a certain date the friends of the mob in Georgia will give Green, the cut-throat at Milledgeville, a tambourine, serenade, in spite of the fact that his work had to be finished by 25 freemen on a dark night!—Montgomery Advertiser.

## New Library Building.

Benjamin Franklin, who did so much more than most of his contemporaries to make Philadelphia appreciate the value of books, especially those that are accessible to all sorts and conditions of men, would probably be amazed could he know that a library building to cost \$3,500,000, to be paid for out of the public treasury and supported by taxation, is about to be begun in the city of brotherly love. Such a project would very likely have been beyond Franklin's most ambitious dreams.—Christian Science Monitor.

## Sermons in Swamps.

No, it isn't hard to brighten up your life if you try to see beauty in commonplace things. I fancy there's very little that couldn't seem beautiful if you pick out the best points and ignore the disagreeable ones. There isn't a swamp that hasn't some beautiful flowers growing in it, and there are mighty few unpainted, weather-stained barns that haven't got a swallow or two keeping house under the eaves. If you open up the dullest gray oyster you may find a pearl in it, and if you look at a buzzing, biting mosquito in the right kind of a light you will see what gauzy, chitony things its wings are.—The Christian Herald.

It is said that Harvard Taylor, being refused an advance by the magazine for which he was writing thought a moment, then smiled with delight. An hour or so later he was seen parading the city streets employed as a sandwich man.—Springfield Republican.

## What War Means.

The casualty total to date in the European war officially reported by the French government is appalling beyond human comprehension. The number killed, wounded or taken prisoner almost equals the population of Mexico. The number killed is almost as great as the population of Portugal. More people have been wounded than live today in the Netherlands or Bavaria, and more have been taken prisoner than live in Denmark or Norway. The casualties among the Teutons account for a population greater than that of Saxony, Wurttemberg and Baden combined, and those of the allies for one greater than that of both Serbia and Montenegro.—Memphis Commercial.

## Larger War Orders.

It is reported that the American Woolen Company has booked orders from England, France and Canada for upwards of \$10,000,000 worth of blankets, overcoats and material for uniforms. During the past week an order for 500,000 blankets was obtained by the company from Italy. This sort of business has greatly benefited the large mills. To the smaller manufacturers it brings little gratification. They must needs remain spectators at the feast. Moreover, the great demand for wool resulting from the war emergency business reduces the available supply of the smaller manufacturers' raw material and stiffens the price of it.—Philadelphia Record.

## THE BATTLE FOR BREAD

## OHIO CAMPAIGN ON TUBERCULOSIS TO BE EXPLAINED

The Ohio campaign against tuberculosis will be explained in detail at the Mississippi valley conference on Tuberculosis, which convenes in Indianapolis on September 29 and which is called primarily to lay the ground work for a broad inter-state campaign against the disease which is annually causing the death of 100,000 men, women, and children in the Mississippi valley.

A large number of delegates from Ohio will attend the Indianapolis meeting, which will be in session three days. Governor Willis has appointed 25 official representatives. It is hoped that this conference, which probably will be the largest ever held in America, will work out a plan of coordination of all agencies and classes of people engaged in the campaign to prevent tuberculosis. These include state and city boards of health, heads of tuberculosis sanitariums, anti-tuberculosis societies, and club women. Physicians will discuss methods of diagnosing tuberculosis in its early stages while there is still a good chance of restoring the patient to health. Nurses and social workers will lay strong emphasis upon the prevention of disease as applied to housing and working conditions; state and city officials will outline plans for its public control.

## ASKING FAVORS.

Friendship always wavers, ceases to be sweet, if you're asking favors every time we meet. When I sit a basking by my cottage door, neighbors come up asking favors till I'm sore. "I would like to borrow your alfalfa stack; early on the morrow I will send it back." "Over at my shanty there is much to do; will you lend your auntie for a week or two?" "Hard times make me holler, I am short of tin; can you spare a dollar till my ship comes in?" "May the gods defend me, for I'm stricken hard, and I wish you'd lend me seven pounds of lard." "I have supped with sorrow more than other men, and I'd like to borrow your old setting hen." "Will you kindly loan me sundry hoes and rakes?" So they come and bane me, till my bosom aches. Borrowers are chronic when they once begin, and I need a tonic for my cheer-up grin. Borrowing's a habit that will make your friend scamper like a rabbit when his way you bend. Borrowing will make you lonesome all your days, for your friends will shake you and denounce your ways.

## HOW TO BALANCE BODY PROPERLY

This is the second of a series of articles on physical culture written for the Advocate by Anna Louise Shafer.

It deals with "body balance," or basic poise, and will interest all women anxious to acquire grace and strength.

This series of articles which will appear in the Advocate will cover in simple English many physical culture subjects about which women constantly are inquiring.

(By Anna Louise Shafer.)

The difference between a graceful and an ungraceful body, a strong and a weak body seldom is organic, but a matter of training.

Every teacher of physical development can bring numbers of cases to prove this statement.

Obviously the very first thing to learn for a girl or a woman who desires to cultivate health and grace—and persistently practice until it becomes an unconscious part of movement—is body balance.

To do this it is absolutely necessary to have an unflinching formula in order to work intelligently and resultfully.

We have this formula in what I call basic poise.

This consists in placing the center of gravity where it belongs—making the balls of the feet the weight bearers. This very simply and naturally brings about the proper oppositions for poise, balance, equilibrium, and at the same time gives the proper tension to the muscles for keeping them alive and active.

Today's illustrations and lesson describe and illustrate exactly how it is done.

Where fat has already accumulated there will have to be some systematic muscular work, with correct abdominal breathing, to burn up the excess. This exercise, to be resultful, must be taken in balance and followed by balance or poise at all times. Poise is restful. Relaxation, or perfect rest, is another thing to be explained later.

## LESSON II.

One of the greatest advantages of body balance as an exercise is that it may be assumed when you put your feet on the floor in the morning and continued, consciously or unconsciously, during all the daily activities.

Note illustration No. 2 G, "Correct Poise."

Action: "Stand erect, with feet about one of your own feet apart, inside line of foot practically straight, and each foot bearing in equal share of body weight. Now sway the entire weight of body forward on the balls of the feet, so that the heels are practically unemployed in carrying weight. You will note that this action retracts the abdomen and expands the chest, while the head involuntarily, but through the action on the spinal column, becomes gracefully poised."

Practice this before a glass and note in which position you feel and look best—correct or incorrect.

At Left—Incorrect Poise; Body Out of Balance. At Right—Correct Poise; Body Balanced. Posed for Advocate's Development Series by Miss Grace Gibson.

## Granville

(Special to The Advocate)  
Granville, O., Aug. 30.—Granville should be proud of the fact that the literary work of one of her citizens has won recognition in Europe. Prof. W. H. Johnson of Denison University, whose editorials are approved by several big New York dailies has just received a letter from Sir Gilbert Parker of England, warmly commending an editorial on the war situation, from the pen of Prof. Johnson, which appeared in the New York Times on July 17. Sir Gilbert also forwarded some valuable information, including the reports of the Brice Commission in Belgium, which is highly prized by Prof. Johnson.

Mr. and Mrs. W. P. Guild and son Wellington of Columbus, who have registered at the Buxton House for the week-end, were guests on Sunday of Mr. and Mrs. Burton Case. They left this morning for a brief visit with friends in Newark.

Mr. and Mrs. Merkle and three children of Marion, O., accompanied by their mother, Mrs. Foye, motored to Granville yesterday and registered at the Buxton House. Mrs. Merkle, who was Miss Florence Foye or the late '90s, was renewing acquaintance with the old town.

Mr. Russell Williams, '15, was a Sunday visitor in Granville with headquarters as usual, at the Beta house. Dr. and Mrs. Bruce E. Lindsey of Columbus were guests on Sunday at the home of Mr. and Mrs. E. J. Dorsey in West Broadway for dinner, and of Mrs. B. I. Jones and Mrs. Belle Grove Wright for supper.

The Baptist church was well filled last evening with a congregation representing the churches which have been holding union services on the Sunday evenings during July and August. Special music by the choir added much to the service. Miss Imogene Hamblen singing the offertory solo in most effective manner. For the morning service Rev. B. F. ## One of Cupid's Fellow Conspirators

Mrs. Dorothy Gates Herrman Young Philip Herrman, Harvard student, and son of a wealthy contractor of New York just couldn't resist Dorothy Gates who appeared in a New York chorus last winter. But that didn't become known until the other day, when a divorce suit was filed in the courts.

Dorothy is eighteen; her husband is just eighteen.

Some Harvard students, she says, introduced them last winter. Then he followed her about until his father began to complain.

"They came to me and asked me to give him up," she said. "I promised I would do so, but he wrote me he would kill himself. What could I do? I had to marry him then. I must say that after we met Philip lost no time. His courtship was swift and within a week I had promised to become his wife."

"After we were married we did not live together, but he called on me as often as he was able. These calls continued until the first of last July, when they ceased. This was because his father induced him to desert me."

Mrs. Herrman said she was trying to establish that her husband was twenty years or older when he married her. But she has been unable to obtain a record of his birth.

Baggs, Miss Brad-dock, Miss Minnie Braddock, Miss Inez Smith, Miss Susan Allport of Asheville, N. C., Miss Burnett Boylan of Milford Center, and Miss Laura Curran of Bellaire.

A very pleasant surprise was given Mrs. Edward Cronley Sunday when Mr. and Mrs. Michael Smith and son John of Dresden, Miss Anna Smith and Mr. Harry Williams of Columbus, Mr. and Mrs. Henry Smith and children and George Smith of this city, gathered at her home to spend the day, the occasion being Mrs. Cronley's birthday anniversary. The guests all brought well filled baskets and a pleasant day was spent.

The Hancock-Copley-Cain reunion was held August 26 at the home of Eugene Beecher near Outville, Ohio. Eighty-six were present, who partook of the bountiful repast prepared by all. After dinner games of various kinds were enjoyed by the men and children, and later a program was rendered, consisting of declamations by the children, music by all, and speeches by many. Among the speakers was Mrs. Legge, who is in her ninety-fifth year. She knew the parents and grandparents of many present and gave a very interesting talk. She did not fail to impress upon the minds of all the love and care of a Heavenly Father.

The next reunion will be held at the home of Byron Evans near Granville.

The Bridge club will meet at the Country club on Wednesday of this week.

## DUAL

IDENTITY MAINTAINED OF  
BANKER AND PROMINENT  
CITIZEN OF ARKANSASJohn W. Kline is Said to Have Con-  
fessed Swindles Aggregating  
More Than Half Million.

(ASSOCIATED PRESS TELEGRAM)  
St. Louis, Aug. 30.—After main-  
taining for ten years a dual identity  
of banker and prominent citizen of  
the state of Arkansas, John W. Kline  
has confessed, according to detec-  
tives, of swindles aggregating more  
than \$500,000.

As a bank director in an Arkansas  
city, Kline was known as John W.  
Barnhardt. He had been urged to  
become a candidate for a member of  
the state senate. He and his family  
were socially prominent.

Kline or Barnhardt was arrested  
here last night. He had escaped jail  
two weeks ago, the police said, from  
Waukesha, Wis., where his methods  
in attempting to mortgage property  
brought him under suspicion.

The hundreds of complaints  
against Kline charge that he went in-  
to a rich farming community, in-  
quired for a good farm which he  
might buy and got acquainted with  
men of money. When he had select-  
ed a farm, it was charged, he either  
borrowed the deed and made out a  
deed deed to himself or bought the  
farm, paid for it by check and took  
possession of the deed.

As soon as the deed was safely re-  
corded in his name, Kline, his accus-  
ers say, mortgaged it and by the  
time the check was returned, marked  
"no funds," he had gone back to  
Arkansas to become a banker again.

The police say Kline is worth more  
than \$350,000.

## OPERATED IN MICHIGAN.

(ASSOCIATED PRESS TELEGRAM)  
Kalamazoo, Mich., Aug. 30.—Local  
officers claim that John W. Kline,  
under arrest at St. Louis, operated  
his alleged bogus deed system in this  
county five years ago and secured  
\$3,500. He is said to have been  
known here as Philip Galvick.

TEACHERS MUST  
REFUND MONEY  
PAID BY BOARD

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Aug. 30.—The teachers  
of Findlay think that they have one  
of the finest school boards in the  
country. Just before the close of  
school this summer, the board—  
each teacher two weeks extra pay,  
the total amount thus given amount-  
ing to \$2,765. This act of generos-  
ity on the part of the board was re-  
sented by a number of taxpayers,  
who asked Auditor of State Donahoe  
to send an examiner to investigate  
as to the regularity of the transac-  
tion. Examiner John Hoegner was  
detached on the case and today made  
his report. He finds that the board's  
action was illegal and he orders  
that the money thus unlawfully dis-  
bursed be paid back by the teachers.  
The board members and teachers are  
all held to be liable for its return.

badly burned several weeks ago, and

Pine street today.

**Condition of Fred Speer.**  
Fred Speer of Hudson avenue

tor reports that he is recovering rap-  
idly.

**Fine Dining Set.**  
There is on display at the Glei-  
chauf furniture store in West Main  
street an elegant dining room set  
which is finished in brown mahogany.  
It is of the Adams style and comes

Grand Rapids. It is in the show win-  
dow of the Gleichauf store where it  
is attracting much attention.

## Brummel's Friends' Wardrobe.

In George IV.'s wardrobe were found  
many things that could not be offered  
for sale—countless bundles of women  
love letters, women's gloves and lock-  
ets of women's hair. These were destroy-  
ed. And 500 pocketbooks came to  
light, all containing sums of money.  
£10,000 in all was thus collected. For  
the king was a great hoarder and yet  
systematic in his hoarding. He carried  
the catalogue of his wardrobe in his  
head and could, it is said, call for  
anything at any moment. He would  
have made an ideal curator of a mu-  
seum.—London Chronicle.

BOARD OF TRADE  
FOR EAST NEWARK;  
MEETING TONIGHT

A meeting has been called for 7:30  
o'clock this evening at the old skating  
rink building at the Pennsylvania  
railroad crossing at Cedar street, for  
the purpose of finding out the senti-  
ment of East Newark residents to-  
wards organizing a board of trade.  
It is said that a number of business  
men in East Newark believe that such  
an organization could be maintained  
and that it would greatly benefit that  
end of the city. A number of them  
have discussed the proposition with  
the result that a call has been issued  
for a meeting tonight. It is hoped  
that there will be a large attendance.

ENGLISH GOLD  
FAILS TO STOP  
MONEY DECLINE

(ASSOCIATED PRESS TELEGRAM)  
New York, Aug. 30.—Twenty mil-  
lion dollars of English gold and \$25-  
000,000 in American stocks and  
bonds, hastily shipped to New York  
by Great Britain to stem the down-  
ward course of the pound sterling  
toward new depths of depreciation,  
failed today to accomplish the task  
and a new low valuation of \$4.61 3-4  
was placed on the English pound, in  
the face of the big gold shipment.

This is 25 1-4 cents less than the  
normal value of the pound in this  
market and establishes a new low  
record for the fourth consecutive  
business day.

necessary to win the trophy.

The Burke Golf Club, which has  
given a very handsome gold medal  
properly inscribed, as the trophy,  
ship medal, which it won twice by the  
same player, becomes his property  
permanently.

The Kinney cup, a handsome solid  
silver trophy will be played for in  
qualifying rounds on Labor Day and  
matches based on these rounds are to  
be played off later. All golf players  
will have an equal chance to win this  
handsome and valuable trophy as the

season. The handicap committee  
consists of Hollander and Dorey. Don't

Bolivia should profit immensely by  
the British embargo on tin. In that  
South American mountain republic are  
tin mines of a remarkable richness, and  
railroad connection with the Argen-  
tine republic has recently been com-  
pleted. These same mines were pro-  
ducing fortunes in silver before the  
first Pilgrim landed in New England.

Because frosts do the most damage  
when the air is calm, a Paris scientist  
has advanced the theory that orchards  
and vineyards can be protected by  
electric fans to keep the atmosphere  
moving.

## PROTECTION

WILL BE GIVEN GRASS IN THE  
PARK BY LABOR DAY  
COMMITTEE.Arrangements Being Completed for a  
Great Celebration, September 6—  
Big Parade a Feature.

The grass in the Park will be pro-  
tected by the Labor day committee  
on Labor day. That portion of the  
park which will be used by the com-  
mittee will be roped off, and the  
shrubbery on the corners will be es-  
pecially protected by stakes and  
ropes.

Many persons, especially those who  
think that working or rather labor-  
ing men have no use for flowers,  
censure the park committee of the  
council, for granting permission to  
the Labor day committee for the use  
of the same on Labor day, suggest-  
ing that the Labor day celebration should  
have been held at Buckeye Lake,  
Moundville or the Old Grave yard.  
To such persons the committee can  
only say, wait before you criticize,  
until after the day is over, and then  
we can say, that the Trades Assembly  
will repair any damage done by the  
committee's use of part of the park  
that was assigned to them by vote of  
the City Council.

Every local Union affiliated with  
the A. F. & L. will be in the parade.  
An invitation has been extended to  
all Unions whether affiliated or not.  
The City Council, Mayor and heads  
of all departments of the City govern-  
ment, and the Board of Education,  
Board of Trade, Business Men's  
Retail Association, every Manufac-  
turer and in fact every Citizen, is  
asked to co-operate with organized  
Labor, if only for that day, to en-  
d that Monday, September 6, will  
be the greatest celebration of Labor  
day, ever held in Newark. The  
parade will move at 10:15 a. m., and  
four brass bands and the drum corps  
will enliven the marchers.

rises falling a little.

at 84 1/2 to 84 3/4, use of 84 to 1 1/4.  
Heavy offerings of corn after which there  
was a slight rally.

erly in charge of the day guard at  
the Ohio penitentiary but is now  
connected with the Central Union  
telephone company. He frequently  
visits in this city.

and 1,000 autos are wanted in the

pate including the Seventh Regiment

gations will be present from Youngs-  
town, Steubenville, Martins Ferry

along bands composed of their mem-  
bership, and dressed in native  
costumes. Four drum corps have also  
been secured.

Dog Days Ended.  
The dog days have come to an end  
and during the time they were here  
saw the coolest weather in a number  
of years.

Newark Artist's Picture.  
The Photographic Supplement in  
Sunday's Cleveland Leader contains  
a picture taken by James Passman,  
a Newark photographer. The pic-  
ture which is 45 inches long shows  
pupils of Kent State Normal school.  
There are 2300 faces in the group,  
2007 of whom are pupils attending  
the Normal school.

Missionary Notice.  
The North Franklin Missionary So-  
ciety which was to have met with  
Mrs. Chas. Tavenor on next Thursday  
has been postponed until September  
9th account of the State fair.

In New Location.  
The New York Finance company  
is now located in Rooms 12 and 13  
Libbert and Schaus buildings.

Back To Ohio.  
Col. O. B. Ellis, a large ranch  
owner and cattle raiser of Bernito,  
Texas, who has frequently visited in  
this city where he has many friends,  
has returned to Ohio and will visit  
with a sister at Johnstown before  
returning to his southern home. Col.  
Ellis is located near Brownsville on  
the Mexican border and has had sev-  
eral mixups with the Mexicans, being  
forced to dispose of most of his cat-  
tle on account of the thieving

propensities of the Mexican soldiers.  
He has also witnessed several sharp  
engagements and took part in driving  
out a band of Mexicans who were  
sniping Americans across the border.  
Is Improving.

Mr. Frank Douce, in charge of the  
purchasing department of the Ohio  
Light and Power company, who had  
his right wrist dislocated while  
cranking an automobile, is again  
back on the job after suffering in-  
tensely for several days.

Meetings to Continue.  
Corner Grant and Williams streets.  
The Evangelist Viola Brown of Mar-  
ietta and co-workers have promised  
to hold meeting over another Sunday,  
beginning promptly at 7:30 each  
evening. Beautiful hand painted  
charts are used each evening to  
illustrate the subject. All are cordi-  
ally invited.

At High School.  
Pastor C. B. Shull of Columbus  
lectured Sunday afternoon at the  
High School Auditorium on "The  
Overthrow of Satan's Empire." The  
lecture was under the auspices of the  
International Bible Student's Associa-  
tion.

In Newspaper Work.  
W. H. B. Smith of the Ohio Light  
& Power Co. left for Danville, Ill.,  
last night to become advertising  
manager for a newspaper in that city.  
Mr. Smith has had considerable ex-  
perience in the various branches of  
newspaper work in St. Paul and  
other Northwestern cities, and has  
done some writing while in Newark  
for the Advocate.

Shooting Gallery Leaves.  
The shooting gallery which has oc-  
cupied the room in the Hunter block  
in West Main street since last spring  
closed for business in that location  
Saturday evening. It enjoyed a good  
patronage and there are now many  
more ripe experts over the city.

Advocate is Complimented.  
The American Association of  
Newspaper Special Advertising in its  
August bulletin to members who are  
located all over the United States  
contains a full page reproduction of  
The Newark Advocate's "Buy at  
Home" page which has appeared in  
Saturday's Advocate for the past  
eleven weeks. The bulletin tells of  
the value of such advertising and of  
its advantages to the publisher and  
the merchants of the city. Each Sat-  
urday the illustrations and the argu-  
ments for home buying have been  
new and no single advertisement up-  
on the page exceeds four lines.

Attending State Fair.  
P. B. Dudgeon, Secretary of the  
Licking County Agricultural Society  
left this morning to assist in one of  
the departments at the State Fair.  
Mr. Dudgeon will be in his office on  
next Saturday.

Horse Reported Stolen.  
A man named Stoller, living near  
Jacksonstown, reported to Police  
Chief Sheridan Sunday that a horse  
described as "flea-bitten" had been  
stolen from his place. Late Monday,  
the Newark officer believed he had  
the rig located and was arranging to  
go after it. The horse was hitched to  
a phaeton and wore a new set of  
harness.

Old Warrant Served.  
A warrant issued by Mayor Bigbee  
last December, was served Saturday  
on Mr. and Mrs. Thomas Golden who  
were charged with neglecting to pay  
a board bill of \$6.30 to Mrs. Her-  
mann Mercer. The bill was settled  
and the costs paid and the case drop-  
ped. In police court Monday morn-  
ing, three drunks and four train  
riders drew nominal fines.

Fined For Assault.  
Bradford Bollwine pleaded guilty  
in Mayor Bigbee's court Monday  
morning to a charge of assault,  
brought by Mac Mossman, township  
trustee and late candidate for mayor.  
In an altercation which arose over a  
suit of clothes, left with Mossman,  
to be called for by a cleaner, Moss-  
man alleges Bollwine struck him.  
The fine of \$5 was suspended and  
Bollwine paid the costs.

Must Serve Sentence.  
A. H. Mole and Dr. Hall, two East  
Newark individuals arrested some  
time ago for disorderly conduct, were  
again arraigned before Mayor Bigbee  
Monday on a charge of being drunk.  
There were fined \$5 and costs each  
and the sentence suspended upon  
their last appearance before the court  
was ordered executed. The mayor  
agreed to again suspend the sentence  
if the men would ship their effects  
from the city and leave the town for  
good.

Steam-pipe Burst.  
A bursting steam pipe in the office  
of the A. H. Heisey company at 1  
o'clock today caused some alarm  
among the employees and a call was  
sent for the fire department. All  
companies responded to the factory  
alarm but the services of the firemen  
were not needed.

"Prince" Went Insane.  
"Prince," a snow-white fire horse  
in the service of the Wheeling fire  
department for years, went suddenly  
insane several days ago and was shot  
by the chief of police. "Prince" was  
raised by J. O. Fisher of Lamira,  
Elmont Co., a brother of John  
Fisher of the Mt. Vernon Road. J.  
O. Fisher is visiting now at his  
brother's home.

Visited State Capital.  
Constable Joseph Yates of Justice  
F. S. Scott's court was the guest of  
friends at the Catil City Sunday  
and was entertained at dinner by one  
of his old time friends. The con-  
stable greatly enjoyed his visit and  
refutes the imputation of some of his  
friends that there is an especial at-  
traction for him in the North High  
street residential district.

Back from Outing.  
David Manning has returned from  
a delightful outing, a greater part of  
which was spent at the Manning sum-  
mer home along the Maine coast  
northeast of Portland. Mr. Manning  
spent the time in motoring and fish-  
ing being an adept at deep sea trout-  
ing. He also visited at his old home  
in Boston and attended a couple of  
games at the new home of the Bos-  
ton Braves at Fenway park, which is  
said to be the greatest baseball plant  
in the country. Mr. Manning also  
visited at Norfolk, Va., saw several  
of Uncle Sam's battleships and then  
took the ocean trip from there to  
Haltimore.

STEEL WORKER  
IS KILLED BY  
TRACTION CAR

NEWARK MOTORMAN ACQUIT-  
TED OF RESPONSIBILITY BY  
MUSKINGUM CORONER.

Unfortunate Was Lying Across the  
Track and Front Trucks  
Decapitated Him.

Zanesville, O., Aug. 30.—James  
Leroy Casey, aged 32, a sheet mill  
worker of Wheeling, W. Va., was in-  
stantly killed at 7:45 o'clock Satur-  
day evening west of this city when  
an Ohio Electric Interurban car, Col-  
umbus-bound, severed his head from  
his body. He was lying along the  
right of way, his head over and in-  
side the rail, when Motorman Claude  
Hager of Newark first saw him, 15  
feet away. The front trucks of the  
car passed over his body.

Casey had evidently planned to pay  
his board bill with a part of his  
pay, Coronator McFarland having  
found \$14 hidden in his shirt pocket,  
this representing the amount he is  
said to have owed Mrs. Gadd, Euclid  
avenue, with whom he made his  
home. The coroner found 95 cents  
in another pocket. Casey had drawn  
\$21 from the American Rolling Mill  
Co.

Coroner McFarland questioned Mo-  
torman Hager early Sunday evening  
and after the examination said  
that the motorman could not be held  
responsible for the accident. The  
car struck the body just a few feet  
beyond a sharp curve, and the head-  
light did not reveal the figure on the  
track until too late to stop the car.  
What caused Casey to lie down  
along the tracks is not known.

Casey came to this city to work  
several weeks ago. His wife and  
several children remained in Wheel-  
ing. The body was taken to that  
city Sunday morning for burial.

RETURN FROM  
FINE TRIP ON  
BIG FREIGHTER

Mr. and Mrs. Bernie Wingenter  
and sons, Kermit and Jack and At-  
torney and Mrs. J. Howard Jones re-  
turned today from a delightful two-  
week cruise on a lake freighter  
from Buffalo through Lake Erie,  
Lake St. Clair, Lake Huron, thence  
by way of Sault Ste. Marie across  
Lake Superior to Duluth. The  
freighter was one of the largest on  
the lakes, was splendidly furnished  
and magnificently equipped. This  
was the fourth trip of a like nature  
for Mr. and Mrs. Wingenter and  
sons.

Mr. Jones stated today that the  
only handicap to the delightful jour-  
ney was the absence of the daily  
papers while on the water as the  
ship's wireless only reported ship-  
ping events of interest to the boat's  
company. Upon arriving at the  
"Soo" on the return trip Mr. Win-  
genter, who is a great base ball fan,  
had counted upon securing all the  
back numbers of the city papers, and  
as their boat only remained a few  
minutes he began engaging all the  
wharf loungers along the docks. Not  
a daily was secured but when the  
boat pulled out Mr. Jones says that  
Mr. Wingenter had enough Michigan  
country weeklies to paper a good-  
sized room. As a consequence of the  
scarcity of daily publications they  
were forced to wait until their arri-  
val at Detroit to again become posted  
on the current events of the day.

Passage on the big lake freighters  
is almost a thing of the past and a  
person nowadays almost has to own  
one of the big boats in order to se-  
cure transportation. Attorney Jones  
stated today that the trip was one of  
the most delightful, enchanting and  
invigorating that a person could im-  
agine and he hoped that he might be  
able to repeat it some time in the  
future.

## CONCESSIONS

(Continued from Page 1.)  
is really the person responsible for  
them and little rests with him. Goods  
valued at many millions of dollars  
have accumulated at Rotterdam and  
await transportation to the United  
States. The order applies to these  
but whether it will extend to goods  
yet in German factories, but under  
contract for delivery on this side of  
the Atlantic, is yet undetermined.  
The success of private interests in  
London represented by special attor-  
neys in securing the release of about  
\$600,000 worth of such goods now  
on the docks is explained at the Brit-  
ish embassy here as due to the fact  
that the local attorneys there were  
able to secure and present to the  
British authorities the proof requir-  
ed as to the character of the goods  
and the conditions of contract. Now  
it is planned to permit American im-  
porters to present proof at the Brit-  
ish embassy here, which, it is believ-  
ed, will greatly facilitate the impor-  
tations.

The entire responsibility for the  
holding up of dyestuffs of German  
manufacture intended for America,  
is placed by the British authorities  
upon the German government and it  
is alleged that a contrary impression  
has been sought to be created be-  
cause of ill-feeling against Great Brit-  
ain. To set itself straight in this  
matter, the British embassy today is-  
sued the following statement:  
"On April 14, a formal notice was  
issued by the British government  
that they would allow vessels carry-  
ing two shipments of dyestuffs which  
were paid for by delivery in Germany  
of certain cotton carcases, to pass  
without interference, provided the

vessels sailed under a neutral flag;  
that the shipments were made from  
Rotterdam, and the dyestuffs con-  
signed to the secretary of commerce  
for distribution directly to the tex-  
tile industries.

"This offer, which was refused by  
Germany, still holds good."

"CHIEF" BENDER  
IS RELEASED BY  
BALTIMORE FEDS

(ASSOCIATED PRESS TELEGRAM)

Baltimore, Md., Aug. 30.—The un-  
conditional release of Pitcher  
"Chief" Bender was announced today  
by the management of the Baltimore  
Federal league club. Bender was  
formerly with the Philadelphia Ameri-  
cans and for years ranked as one of  
the most famous pitchers in the  
game.

MAN INJURED;  
YARD ENGINE  
STRUCK WAGON

A Burrell, who conducts a grocery  
at Rocky Fork and father of W. H.  
Burrell, the East Church street  
liveryman, was badly injured Satur-  
day evening while returning to his  
home from this city when his spring  
wagon was struck by a Pennsylvania  
railway yard engine pulling a couple  
of cars.

Mr. Burrell did not see the engine  
backing down upon him and his  
wagon was struck just as it was in  
the middle of the track. The engine  
was only going at a moderate speed  
else the driver might have been killed.  
Mr. Burrell was thrown to the  
ground and received a cut behind the  
ear and his face was considerably  
bruised. He was taken to the city  
hospital where his injuries were  
dressed and later he was taken to  
his home. The horse was not injured  
but the spring wagon was almost  
demolished.

## REV. L. C. SPARKS

(Continued from Page 1.)  
of their beliefs, the Mormons finding  
excuse for polygamy in the Biblical  
history of Solomon and his many  
wives.

He said that "Mr." Russell found  
in the story of Elijah reasons for ad-  
vancing a new theory as to God's plan  
for bringing about the Millennium  
when in fact it was the means taken  
by the Almighty to put heart and  
soul into a discouraged man until his  
work was finished.

He referred to Pastor Russell's de-  
claration that he could not join in the  
prayers for peace in Europe because  
he believed it to be a part of God's  
plan. Dr. Sparks declared he could  
not believe that God would bring  
about such awful carnage as is taking  
place in Europe. He said he did not  
believe that God was the bloodthirsty  
being that Pastor Russell's interpre-  
tation would lead one to believe.

"None of the prayers of the Europ-  
ean monarchs," said Dr. Sparks,  
who are beseeching the Almighty's  
aid in this war, can be sincere unless  
they pray, "Thy will, not mine, Oh,  
Lord, be done."

He referred to Pastor Russell's the-  
ory that all this was because God was  
displeased with the failure of the  
world. He said he would agree with  
Pastor Russell that Adam had a good  
start and that he made a botch of  
things. He would admit that the world  
was touched with sin and is now  
troubled but he denied emphatically  
that the world was deteriorating,  
spiritually, mentally or materially.

He called attention to the advances  
made by the sciences, by religion, etc.  
That the average length of life had  
been increased seven years in the past  
quarter of a century.

He found no alarming symptoms in-  
dicating that the collapse of God's  
church on this earth was about to  
take place.

GREEKS POISONED  
BY EATING CHEESE

(ASSOCIATED PRESS TELEGRAM)

Hamilton, O. Aug. 30.—The Greek  
section of this city was thrown into  
a state of excitement today when  
eight Greeks who had attended a  
party last night were stricken with  
ptomaine poisoning. Peter Mehas, a  
wealthy Greek is not expected to live  
while the seven others are still in a  
serious condition. The cause of the  
poisoning is attributed to the eating  
of some cheese.

## NO VACATION AT PRESENT TIME FOR PRESIDENT

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 30.—President Wilson had given up all idea today of a further extended vacation this year. He had planned to spend the whole month of September at Cornish, N. H., but his plans now are not to leave Washington until the situation between the United States and Germany clears, if he leaves at all.

The President already has received assurances from official German sources which he hopes will result in solving the controversy with Germany over her submarine warfare. Count von Bernstorff, the German ambassador, had returned today to the summer embassy on Long Island, satisfied that an amicable understanding would be reached regarding the Arabie tragedy as well as all other issues with Germany.

## SLEEP RESTORED BY NERV-WORTH

MARVELOUS NEW NERVE BUILD-  
ER GIVES REMARKABLE RE-  
SULTS IN TYPICAL CASE.

Nerv-Worth is effective against all forms of nervous disorders. A well known local man told a Nerv-Worth salesman a story recently which illustrates the point. Said he:

"I took home a bottle of Nerv-Worth the other day, hoping that it would prove useful in overcoming my wife's intestinal indigestion, a long-standing trouble. It did accomplish that, and another remarkable thing. My wife has been a bad sleeper for years. While taking Nerv-Worth not a single sleepless night was her portion, and there were excellent results in still another direction. My wife often has trouble in the form of constipation. There was none of this whatever while she was taking the bottle of Nerv-Worth."

Nerv-Worth overcomes intestinal trouble because it is a mild but effective laxative. It promotes restful sleep by quieting the nerves of the stomach and assisting in the process of digestion. Sold on a guarantee by T. J. Evans, druggist, Warden Block.
